

Abbey Gardens School Careers Education and Information,  
Advice and Guidance (CEIAG) Policy

### **Rationale**

At the heart of Abbey Gardens School's (AGS) Careers Policy is our founding principle- We Are Brave. We believe that meaningful Careers education and guidance is a major contributor to reaching each student's goals and we aim to prepare our students for the opportunities and experiences of life and help them make a successful and positive transition to their next destination.

### **Statutory Requirements and Commitment**

The statutory guidelines require schools to provide a programme of careers education in Years 7 to 11 and to give all students access to independent careers information and guidance. The Careers Strategy sets out that every secondary school should use the following Gatsby Benchmarks to develop and improve careers provision:

- A stable careers programme
- Learning from career and labour market information
- Addressing the needs of each pupil
- Linking curriculum learning to careers
- Encounters with employers and employees
- Experiences of workplaces
- Encounters with further and higher education
- Personal guidance

Following the Government's expectations, AGS is committed to continuing to meet the Gatsby benchmarks. AGS is committed to providing all students with good quality, careers education supported by personalised information, advice and guidance delivered by qualified professionals throughout their education.

AGS will endeavour to follow the Careers guidance and access for education and training providers (DfE, 2025) the National Career Development Framework (2023) and other relevant national guidance from relevant bodies as they appear.

### **Aims**

The purpose of CEIAG at Abbey Gardens School is to contribute to the achievement of the following objectives:

- Motivating students and empowering them to plan and manage their futures, including their learning journey

- Responding to students' individual needs and promoting their personal development, including enabling them to use individual learning planning to assist their progression
- Supporting students to make informed learning and career choices by providing them with information, resources, and access to multiple providers throughout their education.
- Raising students' aspirations through practical activities that enable them to explore opportunities in learning and work, including higher education, that they might not otherwise have considered
- Promoting inclusion, equality of opportunity and challenging stereotypes
- Improving attainment by providing curriculum activities that develop students' career exploration and management skills and supporting this with personalised information, advice and guidance

### **Delivery**

There is a planned programme of learning experiences from all students that includes:

- Core learning activities taught by specialist staff within PSHE lessons
- Teachers will include career information in the curriculum of all subject areas and learning programmes
- Additional activities for all, including bespoke work experience (WEX), visits to external workplaces, STEM and other career-related activities delivered by employers, alumni and local agencies including higher education, apprenticeships and other providers.

See appendix for full outline on how Gatsby requirements, CDI framework and statutory requirements are being achieved, email [kay.park@abbeygardensschool.co.uk](mailto:kay.park@abbeygardensschool.co.uk) for further details.
